## About DataFirst

- ✓ Data First, a division of Cloud Planet Technologies Pvt Ltd, is Gujarat's first data center built to Tier-III standards.
- ✓ Started operations in Jan'10
- ✓ Best in class Infrastructure with security standards like ISO/IEC 27001:2013 & SAS-70.
- ✓ Data First has already expanded its operational data centers to three locations i.e., at Ahmedabad, Jaipur & Mumbai with Business Centers at Delhi, Ahmedabad, Jaipur and Mumbai which identifies its robustness from the rest.

## Infrastructure Excellence

- ✓ Industry leading infrastructure with
  - Multi Layered Security Architecture
  - Power Redundancy & Back-up
  - Fire Detection & Suppression Systems
  - Precision Air Cooling (PAC) Systems
  - Redundant Network Infrastructure
- ✓ Delivering uptime of 99.981% Service Level Agreement (SLA) to our 100+ local and international clients

# Security And Fire Safety

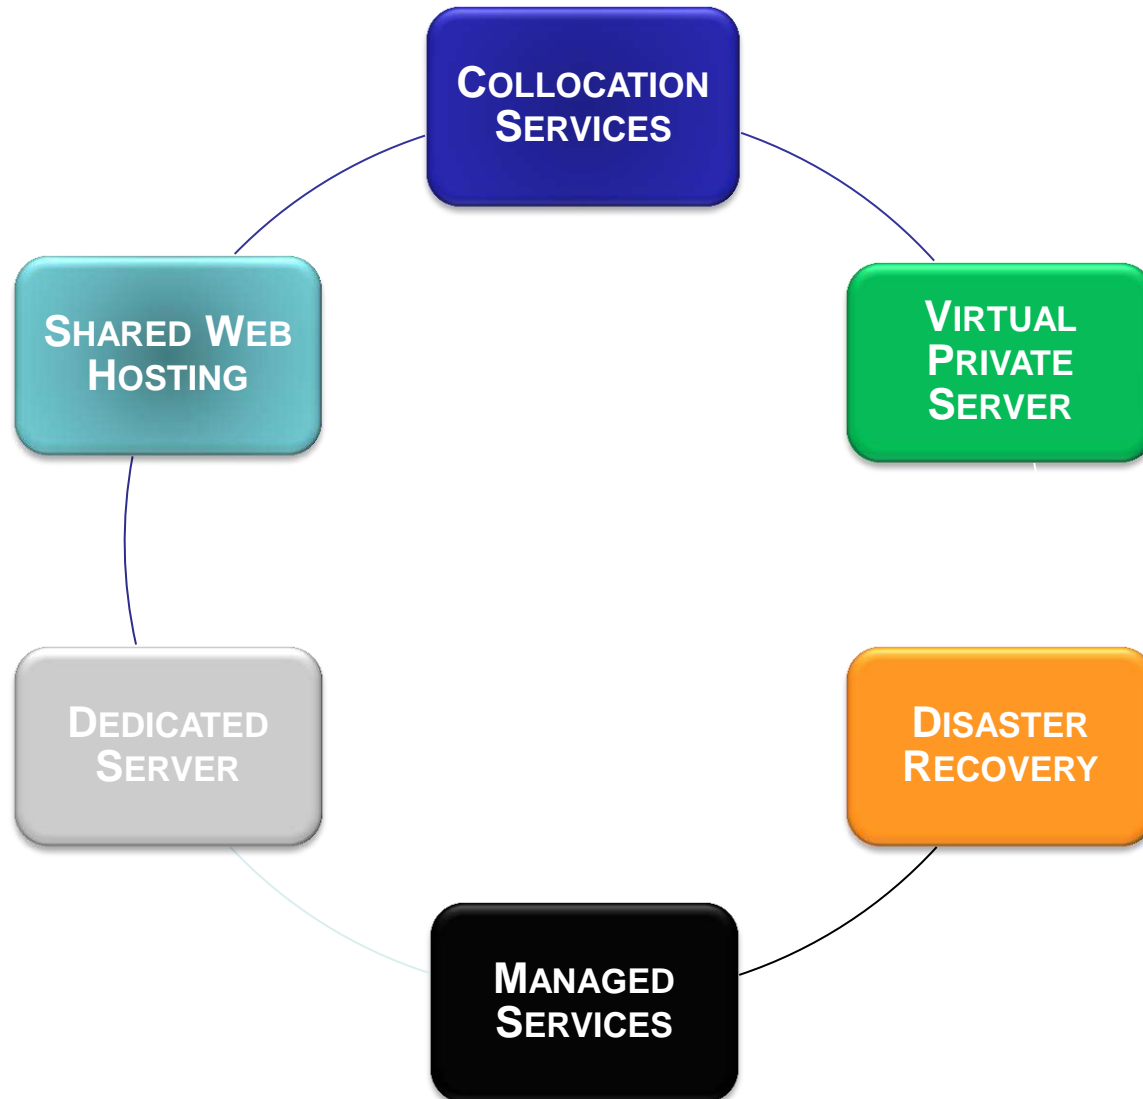

# PAC and N/W Redudancy

## Key Service Offerings

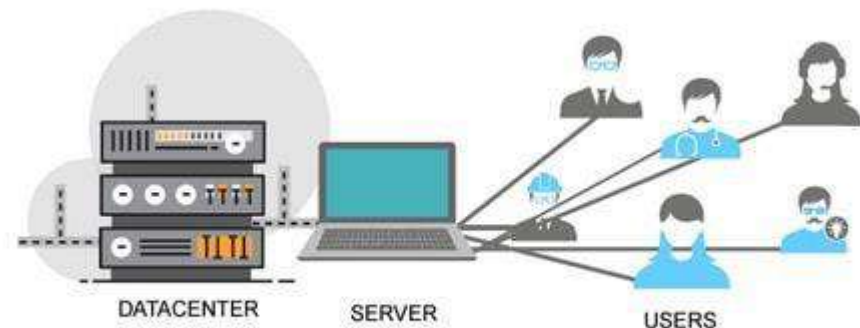

## Colocation Services

- 
- A close-up, vertical view of a server rack. The rack is dark blue or black. On the left side, there are several server units. One unit has a small display screen showing "POWER SERVER" and some status indicators. Below the screen is a power button. The rack is filled with various components, including cables and connectors. The background is white.
- ✓ Collocation refers to the practice of housing your servers and devices in a professional datacenter in order to achieve:
    - Reliable Bandwidth & Greater Uptime
    - Advanced Infrastructure & Security
    - Lower Investment
  - ✓ We offer rack space with optimal operating conditions and high levels of security for customers' critical IT equipments along with redundant bandwidth and monitoring services
  - ✓ As the business expands, customers can simply rent additional space from us. Thus they can take advantage of saving initial investment on space, as well as recurring cost for managing the equipments.
  - ✓ Flexible service plans like 1U/ 2U/ 4U/ Half Rack/ Full Rack, are available as per the client requirement

## Shared Web Hosting

- ✓ Shared Hosting refers to the web hosting service where multiple websites reside on one web server connected to the Internet.
- ✓ It is the most economical option for entry level hosting, as many people share the overall server cost
- ✓ We offer the shared hosting space on our servers with:
  - Choice of OS Environment
  - Easy-to-use Control Panel
  - Unlimited FTP Access

**SHARED WEB HOSTING**

## Virtual Private Server

Virtual Private Server (VPS) is a method of splitting a server through latest virtualization technology in such a way that, each VPS can run its own full-fledged OS, and can be independently rebooted.

Next level of performance that can be used in place of, shared hosting for more power & better performance

We offer customized VPS plans with:

- ✓ Committed CPU, RAM and Storage
- ✓ Complete Access and Full Control
- ✓ Flexible Upgradation Options

## Dedicated Server

- ✓ Dedicated Server is a type of internet hosting in which the client leases an entire physical server not shared with anyone else.
- ✓ Due to relatively high price, it is mostly used by websites/applications that receives very large volume of traffic or require overall high configuration
- ✓ We offer high-end Dedicated Servers having advantages like:
  - Greater Security & Reliability
  - Outstanding System Performance
  - Custom Software Configuration

## Disaster Recovery (DR)

- ✓ Prolonged system downtime can lead to major losses in time, resources and money for the large enterprises with global operations/ operating continuously .
- ✓ Our Disaster Recovery (DR) Services minimizes the amount of data lost between crash and recovery, guaranteeing the reliable restoration of mission critical IT services.

## Reason to Choose Data First

- ✓ Comprehensive Array of Solutions and Plans
- ✓ Best in Class Redundant Infrastructure
- ✓ Tier – III with Guaranteed Uptime of 99.981%
- ✓ Lower Latency & Proximity Advantage for Any Unscheduled Service
- ✓ 24 X 7 X 365 Support with Escalation Matrix
- ✓ Exceptional Customer Satisfaction
